

ARST 556D February 3, 2009

Introduction to ICA-AtoM: web-based archival
description software

Evelyn McLellan
ICA-AtoM Community Manager

Background

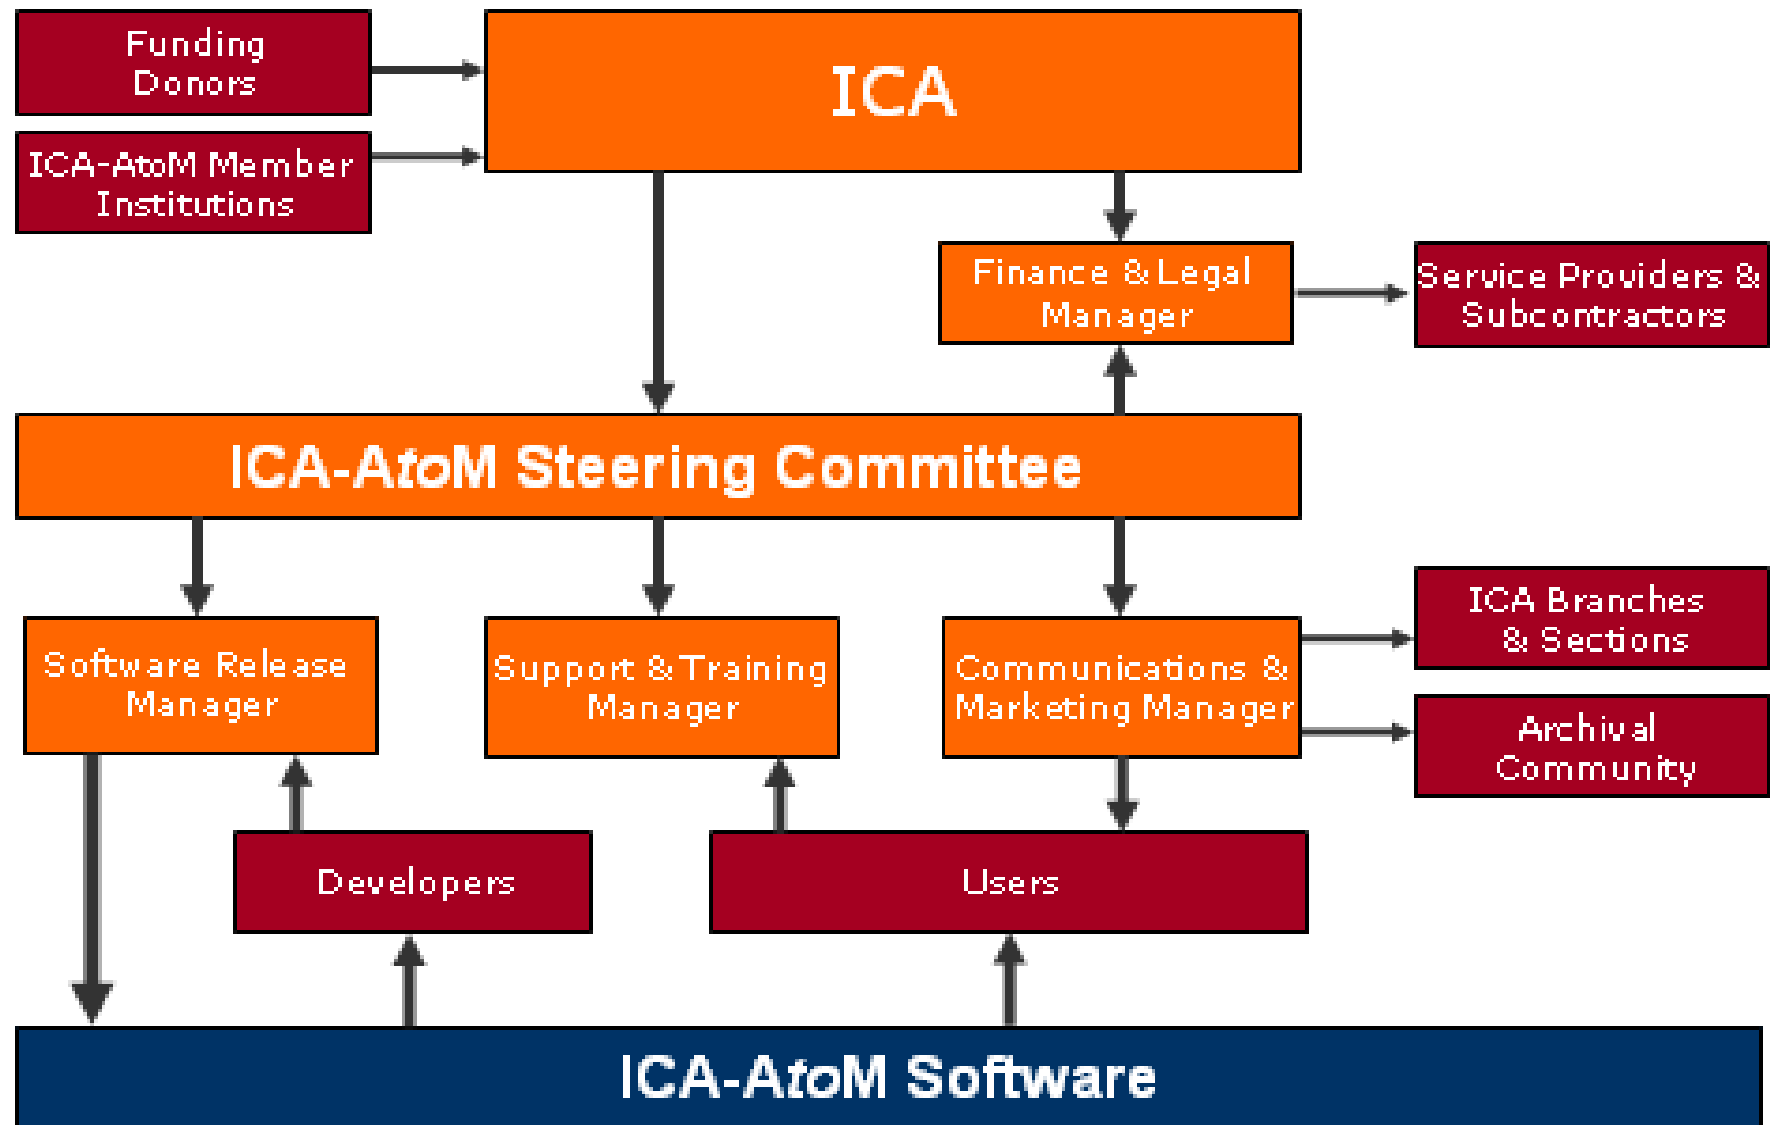

- ICA-AtoM
 - ICA = International Council on Archives
 - AtoM = Access to Memory

Open-source software

- ICA-AtoM is available free of charge
- Anyone can obtain the source code
- Anyone can modify and redistribute the code
- Anyone can contribute to the software's development

ICA-AtoM Governance Model

DRAFT FOR DISCUSSION, Version 3, May 20, 2008

Funding organizations

- International Council on Archives
- UNESCO
- United Arab Emirates Center for Documentation and Research
- Archives de France
- Archiefschool, Netherlands
- The World Bank Group Archives

Goals

- Based on ICA and other recognized standards
- Entirely web-based
- Free to acquire; cheap or free to implement
- Easy to use
- Multi-lingual
